SAFETY ON THE ELEVATED ROADS.

What Guard Rails are and Why they May The drive wheels and after truck of a loco motive on the Metropolitan Elevated Railroad jumped the track while it was passing over a switch at Rector street yesterday afternoon. The engine ran about fifteen feet before it was stopped, being kept in place by the guard rails, These guard rails, consisting of heavy timbers colted strongly to the ties, are placed on either side of each rail, but it is the inner ones that are mostly relied on to hold a train in place if it gets off the track. The inner ones are higher than the outer ones, and are at least three inches higher than the top of the track. In order that the train should "jump" the guard rails, the wheels would have to rise this distance in addition to the width of the flange on the wheels, which, it is said, would be practically impossible. The edges of these inner guard rails next to the iron rails are faced with strips of iron to enable the inner side of the wheels to glide smoothly along if pressed against them. Should one wheel of a truck break, the opposite one would be kept so nearly on the track by the guard rails that the other pair of wheels in the truck would not be likely to be pried off the track in any way, and if they should, the guard rails would in turk keep them so nearly in line with the other truck as to prevent unnatural strains and tendencies on its part to leave the track. Guard rails are not a new invention. They have been used on the bridges of surface railroads for a long time. They have so far acted as a perfect safeguard on the elevated railroads. than the outer ones, and are at least three

## Little Mary Quinlan's Drink.

Mary Quinlan, a pretty little blonde, with long poiden curis, aged 5, of 271 Third avenue, saw her father, who had just returned from a trip to Boston, take a flask from his valles, pour whiskey from it into a glass and frink it. Her father put the flask and the glass down or a table, and went to an adjoining room. Mrs. Quinlan, wondering why Mary took so long to dress, entered the bedroom and saw her lying unconscious on the bed. bedroom and saw her lying unconscious on the bed. There was a strong eder of whiskey on her feeble breath. The flask, half empiried, and the giass were on the floor near the table. Mrs. Quinlan atarmed her husband. Be remembered that the flask had contained a pint of whiskey, and that he had taken only a small drink from it. Inferring from this that Mary had drank at least half a pint of the whiskey. Mr. Quinlan became appreciate. He informed the police of the world-second behave. He informed the police of the world-second chart was to be a superior of the whiskey. Mr. Quinlan assigned to the children's ward. Physicians alministered remedies until nearly 1 o'clock before they were rewarded with any indication of returning consciousness. Then they becam to hope for little Mary's recovery, but it was still doubtful. Mrs. Quinlan assy that Mary has never shown any tasts for liquor. She probably thought her father was drinking something nice, and as soon as his back was turned filled the glass and cinptied it hastily.

For some time past the Richmond County sperintendents of the Poor have had very little, it sy, money in their possession for the support of the anty poor, owing to the refusal of the Board of Super reasons of make a further appropriation, on the ground that they had exhausted their powers in the matter in making one appropriation. Lawyer Stevens, in behalf of the Superintendents, commenced proceedings in the Superine Court, before Judice Barnard, to compel the Superinesors to make a further appropriation of sufficient cash to meet the wants of the poor until the sounds appropriation. Is affected the Case in rayor of the Superintendents.

Justice Meeks granted warrants yesterday for the arrest of the fellows who were in the fracas on Satur-day night last in a barroom kept by Joseph Narz, at Third avenue and Sixth street, Mount Vernon. Wm. Mooney, a village policeman, found in the barroom Daniel Hogan, Intoxicated and making a disturbance with Michael Powers. Mooney, having an iron rake in his band, stuck Hogan on the head. A fightensued. Mooney went home to get his club, and on his return it was taken from him and he was clubbed with it. At this stage of the affair Police Constable Sternhagen arrived, and Hogan was taken to Dr. Weiss, who dressed his head.

WASHINGTON, Aug. 26.-At the Cabinet meet ing to-day the Attorney General read his opinion to the effect that the arrears of pensions under the late law go to the solders who are immates of the hones or dis-abled volunteer soldiers, and not to the "Homes," as claimed by the managers of those institutions.

## Winnted-femnles.

uticura

Hesers WEEKS & POTTER—Gentlemen: To say that I am grateful, is only a poor expression of my feethus, but it is the best word. I have been a great sofferer with skin diseases in the last twelve (12) years. My head and face being covered with sores, I could not rest with the burning heat and liching of the parts affected, and was confined to my house for weeks at a time. My disease has been called Rezena, of a most aggravated type, by many physicians, but i doubt if ever (id) understood by any of them. It was more like a combination of several skin humor of the same more like a combination of several skin humor. It was more like a combination of several skin humor if was more like a combination of several skin humor. It was more like a combination of several skin humor if was more like a combination of several skin humor. It was the like the several skin humor in London. I received temporary relief only, for in the spring it would break out again as had as ever. When I came back to Boston I was told by many friends that Dr. — (whose reputation for the cure of those discases was of the highest order) could cure me. I waited on the Doctor; he prescribed for me. I followed his advice for aix months, and I can safely say without any improvement. I tried other physicians, and among them Dr. — of East Boston, and Dr. — of city proper, but all to no purpose. They did me no good; their remedies were so ineffection that at no time did I feel that ours would result from them.

I have swallowed five hundred arsente pills, 5.20 grain, and takes bottle after bottle of internal remedies, beades was the same. A became activities of the cure of the same well known to Boston people, called my attention to your CUTICURA, and spone curities worked the lacording to the directions. There was so much him to a drug store and hought two large base of CUTICURA, and some CUTICURA SOAP, and commenced to see it according to the directions. There was so much humor lodged within the skin that, as soon as I commenced the use of drug the same s

OFFICE OF THE Manhattan Gas Light Co.,

4 IRVING PLACE, NEW YORK, AUG. 20, 1879.

The Municipal Gas Light Company having appealed to the consumers of gas and the public generally asking them not to lend their support to the MANHATTAN GAS LIGHT COMPANY, we are compelled in self-defence to expose the misstatements of that company with regard to the quality and value of the gas turnished by them. It is not true, as stated by them, that their gas is from 20 to 20 per cent, cheaper to the consumer than the gas

supplied by this company.

It is not true that their gas possesses an illuminating power higher than that of the MANHATTAN GAS LIGHT COMPANY. Tested by the same burner, the mass the MANHATTAN COMPANY is fully equal to that of the MINHATTAN COMPANY, and requires no greater quantity for produce the same amount of light.

The gas supplied by the MANHATTAN COMPANY is far they are the same amount of light.

safer and purer, and as economical as that which the Municipal produces. Careful analyses by the emuest chemist, Prof. Henry Morton, President of the Sussens Institute of Technology, and others, show the Municipal gas to contain 26 to 30 per cent, of carbonic walls, ore of the most poisonous gases that can be robated include in its nature, and destructive of health and hie exca when taken in small quantities.

In burning the Municipal gas, more carbonic acid produced, and more except required, thus vitables the

Air in the room to a much greater degree than the 200 formished by the NANHATTAN COMPANY The MANHATTAN GAS LIGHT COMPANY is not and never has been, as stated by the Managas company. monopoly: It never had any exclusion rights, and need asked for any; it has always rejected the agreedes and pretensions of mere speculators, water gas among the number, and sought to available for all known negrots. nents in science; it has always relied much the qualiand purity of the gas supplied to the public sel-continue to do so, confident of receiving the source all who desire the heat that can be produced at the CHARLES HOOME President
